

# Muslim (and friends) Universal Declaration of Independence

To: The Political and Religious Authorities of the World:

## - Preamble -

We, the undersigned Human Beings, together as Muslim and non-Muslim friends and allies in every part of the World, hereby declare on this auspicious Two Hundred Forty-First Anniversary of American Independence and on all days thereafter, that We also, deserve and will have our Independence from any and all political or religious authorities that want us to hate and kill each other. We hereby renounce forever, all forms of violence ("Jihad"), other than in defense of ourselves or others. We will not

participate in, or support, hatred, deception, theft, rape, murder, terrorism, invasions, unwarranted division and separation from other peoples. We will hereinafter live in Peace and Harmony, as an example to all the world of the life that God would want us to have on this beautiful Earth.

### ~ Grievances ~

For hundreds of years, the Muslim people have been ruthlessly and viciously subjected to a compulsory belief system, memorized from Birth, which says that Muslim people must convert, enslave or kill Kafirs (non-Muslims), or support those that do (1), to conquer the world for Islam (2). Muslims have been taught that homosexuals (3) and apostates (4) must be murdered to please God, that women are of less value than men (5), that slaves and sex slaves can be kept by good Muslims (6), captured women can be raped (7), and non-Muslims should be

terrorized (8) and humiliated (9). Until all the non-Muslims (Kafirs) are killed or converted to Islam, Muslims must not take non-Muslims as friends (10). Since those that will not convert to the true religion of Islam go to Hell forever (11), lying to them (before they are killed, enslaved or converted), in order to advance Islam, is not a sin (12). In short, God hates Kafirs (13), and will send their killers to Paradise (14).

### ~ Declaration ~

We, the undersigned members of the one human family (our signatures are after the "reference" section), assert that these and other beliefs of terrorism, hatred, slavery, deception, theft and murder were never meant for us, and now we therefore make the following Declaration.

We, Muslim people of the world, and all our friends of any religion, or no religion, who want

unity, brotherhood and sisterhood worldwide, declare the following Truths, enumerated below, to be Self-Evident. We Declare our own permanent Independence and Freedom from the above-mentioned beliefs, which these Truths guarantee. We will no longer live in the slavery of hatred and violence, believing in any God of Hate, at war with our brothers and sisters to please leaders who love war and death, and want to control our lives for their own objectives of hate. Our destiny is much brighter and more beautiful than that. These things we hold to be True:

I) God loves us all equally, regardless of our religion, race, gender, age, economic status or character flaws. God hates NO ONE. Hatred is a human trait, not an attribute of God, and we declare our unwavering intent to heal it, starting NOW. It is the birthright of every one of us to live in that love, and share it with each other. Thus, love of humanity, and love of God, be-

come O.N.E.

2) We are on Earth, for this brief sojourn of life, to create Paradise (Heaven) on Earth, the best we can, by respecting, loving and serving each other, as the same God is in all of us. We have no obligation to follow rulers, either religious or political, who tell us we must commit crimes, hate and kill, to please them or to please God. Such rulers are misled, they are making a mistake. They think they are clever, but they do not understand. What they do to us, they do to themselves, literally. We invite them to consider this deeply, wake up, join us in Harmony, not violence, war, or any further deception.

3) Paradise, or any real higher levels of self-aware consciousness, are not gained by murder, terrorism, rape, invasion of sovereign countries, theft, deception, enslavement of anyone, mistreatment of women, men, children, animals, or by other crimes, but by kindness and service to help

ourselves, our families, our friends, our communities, our countries and our world.

4) No belief system has ownership over our bodies, minds or souls. We all come from one Source of Love, and will henceforth live to honor that God of Life, leaving rulers of any kind who would enslave us, Forever.

5) Peace and Harmony in ourselves, with each other and with Nature are our forgotten, normal state. We henceforth claim it as our Birthright, and will live it from this time forward.

Someone once asked, "What if they gave a war, but nobody came?" Our global political and religious rulers have forcibly invited us to the Universal War of our own Self-Destruction, pretending it was for God. We hereby decline the invitation, and will not be attending. Instead we invite them to come with us, initiating a time of Light and Healing. Let them consider carefully.

The deceptive path they lead us on now, does not end well. Even they could be an essential part of something wonderful. Come with us.
